

Dual Biocide

Kills all common system water bacteria, algae & fungi

BOSS™ Dual Biocide is a concentrated formula which prevents the formation and growth of bacterial contamination, algae, and micro-organisms in commercial heating, low temperature and closed cooling/chilled circuits. BOSS™ Dual Biocide is suitable for all systems including underfloor heating and **contains two separate active ingredients, making it more effective than a single biocidal treatment.** It is non-corrosive and remains active to maintain system sterility, helping to ensure efficient system operation.

- Rapid-acting biocide for heating, chilled and condenser water systems
- Anti-microbial - kills Legionella, Pseudomonas, NRB & SRB bacteria
- Kills fungi and algae
- Effective up to 60°C
- Super concentrate formula
 - Treats system volume at 0.4% dosage rate
