## **Heavy Duty DeSludger**

## For old or heavily sludged systems

BOSS<sup>™</sup> Heavy-Duty Desludger has been designed for rapid cleaning of heating, chilled and condenser water systems. The formula can be left in the system for up to 7 days and should then be thoroughly flushed out from the system. Immediate dosing of BOSS<sup>™</sup> Commercial Inhibitor and BOSS<sup>™</sup> Dual Biocide should then be carried out to fully protect and passivate the system after cleaning.

- High strength cleaning agent for heavily sludged heating, chilled & condenser water installations
- Increases system performance & efficiency
- Lowers system running costs
- Removes cold spots & increases system circulation
- Advanced, high strength formula
  - Treats system volume at 0.4% dosage rate
- Neutral pH compatible with all common system materials
