

# Non-Flush Sanitiser & Cleaner

---

## Unique non-drain formula

BOSS™ Non-Flush Sanitiser & Cleaner is a rapid performing cleanser designed to lift and mobilise magnetic debris and other system contaminants to promote their capture via a sidestream or inline magnetic system filter which must be present on any system this product is dosed with.

**BOSS™ Non-Flush Sanitiser & Cleaner can remain in the system indefinitely with no need to drain and flush.**

- High performance sanitiser and cleaner for heating, chilled and condenser water systems
- Lifts and mobilises contaminants and biofilms
- Includes BOSS™ Inhibitor protection to passivate bare metal surfaces
- Prevents under-deposit corrosion
- Super concentrate formula
  - Treats system volume at 0.4% dosage rate
- Can remain in the system – no need to drain or flush
