

BOSS™ X-POT XP SIDE STREAM FILTRATION AND DOSING UNIT

Code	BOSS™ Ref	Description
16920879	X-POT XP C/W Cont Pack	BOSS™ X-POT XP C/W Contractors Pack
16920525	X-POT XP Unit Only	BOSS™ X-POT XP Unit Only
16920591	X-POT XP Cont Pack Only	BOSS™ X-POT XP Contractors Pack Only

16920591	X-POT XP Cont Pa	ack Only	BOSS™ X-POT XP Contractors Pack Only		
Feature		Description			
Maximum System Working Pressure		16Bar			
Suitable For System Volumes up to		302,400L			
Flow Rate Through the Vessel		0.083L/sec to 3.5L/sec (4.98L/min to 210L/min)			
Temperature Range		0°C to 95°C			
Filtration Rate		> 1 Micron			
Weight		Dry: 45kg	Operational: 85kg		
Isolation Valve Connections		2" BSP Female	2" BSP Female		
Dosing Capacity		25L			
Filter Body Mounting		Floor Standing			
Vessel Body		304 Stainless Steel - complies with PED 2014/68/EU CE Marked			
Baffle Plate		316 Stainless Steel			
Magnet Grate		316 Stainless Steel			
Magnets x 13 Off		Neodymium Rare Earth			
Bag Filter x 5 Off (1 Off each size)		Polypropylene Needlefelt (100, 50, 25, 5 and 1 micron)			
Isolation Valves, NRV and Fittings		304 Stainless Steel			
AAV		Brass			
AAV incluing Contractor			Assembly and Operating Instructions are Included Insulation Jacket (3 parts) Pressure Assembly 1 each of 100, 50, 25, 5 & 1 micron bag filters included

BOSS™ X-POT XP SIDE STREAM FILTRATION AND DOSING UNIT (Continued)

Feature	Benefits
Compliance	Engineered for BSRIA BG29 and BG50 Guidance for Chemical Dosing, Magnetic Filtration, Fine Filtration, Passive Deaeration and Side Stream Filtration.
Magnetic Filter	Removes magnetic system debris, increases the lifespan of the boiler, chiller and cooling system components, reduces carbon emissions, increases fuel efficiency and increases the lifespan of the Bag Filter.
Polypropylene Needlefelt Bag Filter	Removes non-magnetic system debris, available in 100,50, 25, 5 & 1 micron filtration rates, ensures coalescence micro-bubble formation on the surface of the filter & surpasses BSRIA Guidance for filtration rates.
Automatic Air Separator	Ensures the system micro-bubbles and air are emitted from the system and helps to reduce corrosion rates and decreases stress on system components.
25L Dosing Pot Capacity	Enables installers and maintenance personnel to quickly dose the system with water treatment additives.
Connections 2" BSP	Suitable for all types of closed loop LTHW Heating and Cooling Water Systems up to 302,400Litres in volume.
13 Off 8,500 Gauss Neodymium Magnets	Each magnet is fully encased in 304SS shell, easily removable from the 316SS Magnet Grate for cleaning and fully submerged in the system flow for increased filtration.
Installation Bracket & Rod	For simple installation to wall + 4 off bolt holes in feet.
Servicing	The cleaning of the filters can simply be achieved without the need to shut the main system down and the dosing of water treatment chemicals is achieved simply and safely, again without the need to shut the system down.
Enhanced Performance	The ingenious design ensures that the filter will continue to perform should regular maintenance not be carried out.
Stainless Steel Components	All major components are manufactured from 304SS or 316SS for improved lifecycle and reliability.
Full Bore Ball Valve isolation Valves	The 304SS isolation valves do not restrict system flow and increases ease of installation.
Bespoke Insulation Jacket	Supplied as part of the Contractor Pack. The bespoke insulation jacket ensures heat losses are minimised.
Warranty	8 years excluding filters and AAV
